CITY MANAGER

FREDERICK GARDINER

City of East Point Mayor and Council 2177 East Point Street East Point, GA 30344

Dear Honorable Mayor, Honorable Members of the Governing Council and Citizens of East Point, Georgia:

RE: Comprehensive Annual Financial Report for Fiscal Year 2016

The Comprehensive Annual Financial Report of the City of East Point, Georgia, for the fiscal year ended June 30, 2016, is herein submitted as required by state government, statutorily require that all general-purpose local governments annually issue a financial report covering its financial position and activity, in conformance with generally accepted accounting principles (GAAP), and that this report be audited by an independent firm of certified public accountants.

The City is also required to submit an annual single audit in conformity with the standards applicable to financial audits contained in the *Government Auditing Standards* issued by the Comptroller General of the United States and the U.S. Office of Management and Budget Circular A-133, *Audits of State and Local Governments and Non-Profit Organizations*. Components of the single audit, including the schedule of financial assistance, the independent auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs are included in a separately issued single audit report, if applicable.

The auditor's opinion intended to provide reasonable assurance that all financial statements will be free from material misstatement. To the best of management's knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner that presents fairly the financial position and results of operations of the various funds and component units of the City of East Point. Responsibility for both the accuracy of the presented data and the completeness and fairness of presentation, including all disclosures, resides with the City.

The financial reporting entity for the City of East Point includes all funds of the primary government, the City of East Point, as well as all of its component units. Component units are separate entities for which the primary government is financially accountable and are included as part of the primary government's reporting. The East Point Building Authority is reported as a blended unit in the governmental funds of the primary government. Non-blended component units are reported in a separate column in the government-wide financial statements. To differentiate their financial position and results of operations from those of the primary government, the East Point Business and Industrial Development Authority and Keep East Point Beautiful are reported as discretely presented component units.

In addition to the Letter of Transmittal, a narrative in the form of Management's Discussion and Analysis (MD&A), is included and contains an introduction, overview, and analysis to accompany the basic financial statements. The Letter of Transmittal is a complement to the MD&A and should be read in conjunction with it. The MD&A follows the report of the independent auditor.

Annual Audit

State statutes require an annual audit be performed by independent certified public accountants. The firm of Banks, Finley, White & Co. was selected by the City to perform these auditing services. In addition to meeting requirements set forth in state statutes, the audit was also designed to meet the requirements of the federal Single Audit Act of 1996, as amended, and the related Uniform Administrative Requirements Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). Generally accepted auditing standards and the standards set forth in the General Accounting Office's Government Auditing Standards were used by the auditors in conducting the engagement. The auditor's report on the basic financial statements is included in the financial section of this report. The auditor's reports on internal controls and compliance with applicable laws and regulations can be found in a separately issued single audit report and internal control report. The City does meet the requirements of a Single Audit.

Form of Government

The Charter of the City of East Point establishes a Council-Manager form of government. Under this form, legislative policymaking is vested in the elected governing council, consisting of a mayor and an eight member council. Four members of the eight members are elected from districts while four members are elected at large for four year terms. All members are elected on a non-partisan basis. The mayor is elected at large for a four-year term. The City Council establishes policy by passing ordinances and resolutions including adopting an annual budget as proposed by the City Manager. The Council appoints the City Manager, City Clerk and City Attorney. The Council also appoints both a Budget Committee and a Finance Committee. The City Manager serves as the Chief Executive Officer responsible for executing the policies of the governing council and for the supervision of the day-to-day operations of the City.

Profile of the City of East Point

Located southwest of Atlanta, the City is included in the Atlanta, Georgia Metropolitan area. East Point has immediate access to the Interstate system (I-75, I-85, I-285), heavy rail, MARTA (transit and bus routes) and is less than a 10-minute drive to Hartsfield-Jackson Atlanta International Airport. The City's population as of the 2010 Census was 33,712. There are 13,333 occupied housing units with an average household size of 2.50. The median house value as of 2012 (most current information) was \$107,000 with a median household income of \$38,759. Median gross rent as of 2012 was \$857. East Point's unemployment is 12.8%. However, those numbers could improve as the City tackles some of the unmet demand in retail space. The City has a current unmet retail space demand of 197,456 square feet within a 2-mile Primary Market area. As of 2012 there were 1,020 businesses in the City with 15,635 employees. The hospitality industry is the largest employer (based on number employees) in the City.

With Fulton County being the largest county in the State of Georgia, the City of East Point is the largest city in South Fulton County. Neighborhoods are continually being revitalized as is downtown East Point, which is geared toward mixed-use development. New businesses are being developed and existing businesses are relocating to the City. The City Council and Fulton County Board of Commission adopted the East Point Corridors Tax Allocation District in 2006 which includes Main Street, redevelopment nodes along Cleveland Avenue and redevelopment nodes along Washington Road.

While the City owns and operates four utility enterprises with revenues in excess of \$74,000,000 (electricity, water and sanitary sewer, storm water and sanitation), the primary general governments revenue streams are property taxes and sales taxes. This is a good revenue mix as property taxes are classified as "inelastic" and sales taxes are classified as "elastic." Sales tax revenue is highly sensitive to fluctuations in the economy.

Budgetary Controls

The City adopts an annual budget as a basis for the budgetary accounting system designed to ensure compliance with legal provisions embodied in the annual appropriated budget. Monthly budgetary reporting is a significant part of budgetary controls as supported by a formal system of amendments and transfers. Activities of the General Fund, Enterprise Funds, and certain Special Revenue Funds are included in the annual appropriated budget. Project length financial plans are adopted for the Capital Projects Program. For additional oversight, the City established Budget and Finance Committees. The Committees are composed of three elected officials and one citizen representative. The citizen representative is approved by majority vote of Mayor and Council. The Budget Committee is charged with monitoring revenues and expenditures and recommending capital improvements. The Finance Committee is charged with reviewing proposed debt financing and participating in the selection of the outside auditing firm.

Internal Controls

Management is responsible for establishing and maintaining an internal control structure. This structure is designed to ensure that the assets of the City are protected from loss, theft or misuse. Management must ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use of disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the evaluation of costs and benefits requires estimates and judgment by management.

As a recipient of federal, state, and county financial assistance, the City is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to federal assistance programs as mandated by the Single Audit Act. As a part of the City's single audit, described earlier, tests are made to determine the adequacy of the internal control system, including that portion related to federal financial assistance programs, as well as to determine adherence to applicable laws and regulations. The auditor's report is a separate document on compliance with federal programs and is not included in this report.

Awards

The Government Finance Officers Association ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its (CAFR) for the fiscal year ended June 30, 2015. In order to be awarded a certificate of Achievement, the City published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Programs requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements

The preparation of the comprehensive annual financial report could not have been accomplished without the dedication of the finance department staff. I would like to express our appreciation to each member of the department who assisted and contributed to the preparation of this report. Due credit also should be given to our independent auditors, Banks, Finley, White & Co., the mayor, the city manager, and the governing council for their interest, and support in planning and

conducting the operations of the City of East Point in a responsible and progressive manner. Everyone has our sincere appreciation for the contributions made in the preparation of this report.

Respectfully submitted,

Frederick Gardiner City Manager

To The Honorable Mayor and Members of City Council, of the City of East Point, Georgia:

Independent Auditor's Report

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and aggregate remaining fund information of the City of East Point, Georgia (the "City"), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statement that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the East Point Employees Retirement Pension Plan, blended component units of the City, which, in the aggregate, represent 100% of the assets and net position of the pension trust funds, within the fiduciary funds. Those financials were audited by other auditor whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for such pension trust funds, is based solely on the reports of other auditor.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and aggregate discretely presented component units and the aggregate remaining fund information of the City of East Point, Georgia, as of June 30, 2016 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (pages 3 through 13), Schedule of Budgeted and Actual Revenues and Expenditures of the General Operating Fund (pages 71 through 130), Pension System Supplementary Information (page 69), and Other Post-Employment Benefits Supplementary Information (page 70) be presented to supplement the basic financials statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of East Point's basic financial statements. The Individual Fund Statements and Schedules, and the Introductory Section and the Statistical Section are presented for purposes of additional analysis and are not a required part of the basis financial statements.

The Individual Fund Statements and Schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statement or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit and the procedures performed as described above, the Individual Fund Statements and Schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory Section and the Statistical Section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 30, 2017, on our consideration of the City of East Point's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of East Point Georgia's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Comprehensive Annual Financial Report (CAFR) for City of East Point (the City), provides interested parties and the general public with a narrative discussion and analysis of the financial activities of the City for the fiscal year ended June 30, 2016. Management prepared this discussion that should be read in conjunction with the basic financial statements, notes and supplementary information found in this report. This information taken collectively is designed to provide readers with an understanding of the City's finances.

FISCAL YEAR 2016 FINANCIAL HIGHLIGHTS

- The City's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by \$81,542,724 (total net position) as of June 30, 2016.
- Total net positions are comprised of the following:
 - (1) Capital assets, net investments in capital assets, of \$65,623.409 includes property and equipment, net of accumulated depreciation, and reduction for outstanding debt related to the purchase or construction of capital assets.
 - (2) Restricted net position is \$11,503,730; restrictions include debt covenants, grantors, laws, or regulations.
 - (3) Unrestricted net position is \$4,415,496.
- The City's governmental funds reported total ending fund balance of \$22,184,637 at June 30, 2016. This compares to the prior year ending fund balance of \$19,693,185 showing an increase of \$2,491,452 during the current year. Unassigned fund balance for the General Fund was \$9,523,551 at June 30, 2016, a \$2,491,452 increase from the prior year amount at June 30, 2015.
- At the end of the current fiscal year, the unassigned fund balance for the General Fund was \$9,523,551 or 33.31% of total General Fund expenditures. An increase of approximately 73% when compared to the June 30, 2015.
- The after-effects of the economic downturn, while improving, continued to affect the City's 2016 revenue streams, particularly as it relates the assessment of property taxes.
- In the City's business-type activities revenues decreased by \$1,239,086 or 1.72%. Expenses increased by \$2,475,313 or 4.14%.
- Based on a constant revenue stream and significantly reduced expenditures, the City made significant improvements in its financial position for FY 2016.

The above financial highlights are explained in more detail in the "financial analysis" section of this document.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Management Discussion and Analysis document introduces the City's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. The City also includes in this report additional information to supplement the basic financial statements. Comparative data is presented to allow comparison to the prior fiscal year.

Government-wide Financial Statements

The City's CAFR includes two government-wide financial statements. These statements provide both long-term and short-term information about the City's overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

The first of these government-wide statements is the Statement of Net Position. This is the government-wide statement of position presenting information that includes all of the City's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City as a whole is improving or deteriorating. Evaluation of the overall health of the City would extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of City infrastructure, in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities*, which reports how the City's net position changed during the current fiscal year. All current year revenues and expenditures are included regardless of when received or paid.

An important purpose of the design of the statement of activities is to show the financial reliance of the City's distinct activities or functions on revenues provided by the City's taxpayers.

Both government-wide financial statements distinguish governmental activities of the City principally supported by taxes from business-type activities intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government, judicial, community development, public safety, public works, parks, recreation and culture, planning and community development and health and welfare. Business-type activities include the water and sewer system, the electric system, storm water, and solid waste activities.

The government-wide financial statements are presented on pages 14 & 15 of this report.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The City uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the City's most significant funds rather than the City as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for nonmajor funds is provided in the form of combining statements in a later section of this report.

The City has three kinds of funds:

Governmental funds are reported in the fund financial statements and encompass the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the City's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund operating statement provide a reconciliation to assist in understanding the differences between these two perspectives. The General Fund's budget to actual comparison statements are presented as basic financial statements on pages 16-20 of this report.

Individual fund information for nonmajor governmental funds is found in combining statements in a later section of this report.

Proprietary funds are reported in the fund financial statements and generally report services for which the City charges customers a fee. The City's proprietary funds are classified as four enterprise funds and a single internal service fund. The enterprise fund essentially encompass the same function reported as business-type activities in the government-wide statements. The internal service fund is reported as part of the business-type activities at the government-wide financial reporting level.

The basic proprietary fund financial statements are presented on pages 21 - 24 of this report.

Fiduciary funds (i.e., the agency funds) is reported in the fiduciary fund financial statements, but are excluded from the government-wide reporting. Fiduciary fund financial statements report resources that are not available to fund City programs. The City's pension plan (a pension trust fund) and collections of municipal court fees (an agency fund) are reported as fiduciary funds. The fiduciary fund financial statements are presented on pages 25 & 26 of this report. Discretely presented component units are reported on pages 27 and 28.

Notes to the Basic Financial Statements

The accompanying notes to the basic financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the basic financial statements begin on page 29 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's Single Employer Pension Plan. The required supplementary information can be found on page 69 - 70 of this report.

Supplementary Information

As discussed, the City reports major funds in the basic financial statements. Comparative information for major funds and combining and individual statements and schedules for nonmajor funds, including budgetary comparison schedules, are presented in a supplementary information section of this report beginning on page 72.

(This page continued on the subsequent page)

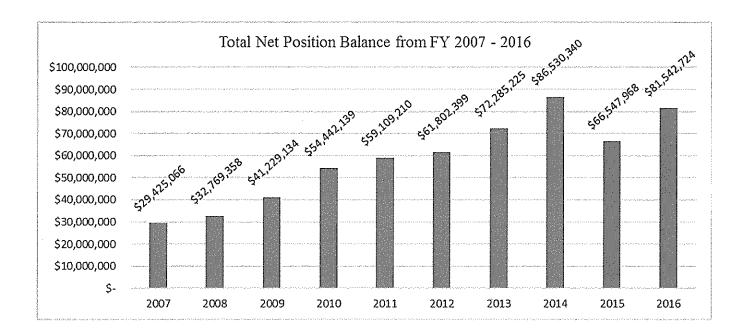

FINANCIAL ANALYSIS OF THE CITY

The City's net position at fiscal year-end are \$81,542,724. The following table provides a summary of the City's net position:

	1 April 1 Apri		Androna	Access	Topposite the state of the stat		
	2016	2015	2016	2015	2016	2015

The following chart reports the City's total net position balances from fiscal year 2007 - 2016.

Current assets in both the governmental and in business-type activities increased in fiscal year June 30, 2016.

The City reported positive balances in net position for both governmental and business-type activities. During 2016, net position increased \$7,503,226 for governmental activities and increased \$7,491,532 for business-type activities.

Capital assets represents approximately 63% of total assets for governmental activities. The City uses these capital assets to provide services to its citizens. Business-type capital assets make up approximately 59% of total assets. The City uses these capital assets to provide services to its customers. Combining governmental activities with business type activities, the City has invested approximately 61% of its total assets in capital assets, as presented in the government-wide statement of net position.

(This page is continued on the subsequent page)

The following table provides a summary of the City's changes in net position at June 30, 2016 and 2015:

Governmental Activity Revenues

The City is heavily reliant on both property taxes and sales taxes to support governmental operations. Property taxes provided 46% of the City's total governmental activities revenues as compared to 36.10% in fiscal year 2015; Sales and Use Taxes provided 28.02% of the City's total revenues compared to 24.6% in the fiscal year 2015.

Note that program revenues covered 15.51% of governmental operating cost as compared to 28.4% in fiscal year 2015. General revenues funded 98.24% of the governmental activities, primarily from property and sales taxes. As a result, the economy and the success of local businesses have a major impact on the City's revenue streams.

Governmental Activity Expenses

General Government expenditures increased approximately \$8,406,013 from prior year, primarily due to increases in economic and community development, general administrative and public safety costs. The increases can be attributed to increase in public safety cost and capital purchases for roads, public safety equipment and other capital projects.

The following table presents the cost of each of the City's programs, including the net costs (i.e., total cost less revenues generated by the activities). The net costs illustrate the financial burden that was placed on the City's taxpayers by each of these functions.

Business-Type Activities

Overall Analysis – Total operating revenues decreased by \$1,099,256 or 1.53%. Operating expenses increased by \$2,005,317 or 3.17%. In total, the operating income decreased by \$3,714,399. The factors contributing to these results include:

Increase in demand of services, decreases in cost allocations, purchase and personnel services expenses.

After all cost allocations, the change in net position for each utility was as follows:

Water and Sewage	\$2,802,338
Electrical System	\$2,497,348
Storm Water	\$1,503,752
Solid Waste	\$ 688,094

The following includes an analysis of the fiscal year 2016 financial activities for each utility.

Water and Sewerage Fund – Operating revenue decreased by \$657,983 and operating expenses increased by \$25,997 from fiscal year 2015. In total, the change in net position is positive, \$2,802,338. While overall the net position increased, revenues decreased and operating cost increased. The primary cause of this of these changes were the increase in personnel and material and supplies. Personnel cost increased by 36% from the prior year. At year-end, net position totaled \$15,939,840, a increase from the June 30, 2015.

Electric Fund – Operating revenue decreased by \$1,016,010 and operating expenses increased \$2,005,317. The decrease in revenue was the result of decrease in power consumption due to a large customer relocating. The wholesale cost of electricity, which rose approximately \$2.6 million form fiscal year 2015 is a main factor of the increase in operational expenses. The fund also recognized \$4.4 million of their bond reserve from MEAG compare to \$2.2 million in the prior year. At year-end, the net position totaled \$26,137,402 an increase of \$2.4 million from June 30, 2015.

Storm Water Fund – The Stormwater fund earned its initial revenues from the enactment of Stormwater Ordinance 018-12 approved December, 2012. Storm Water revenues are collected by placing Storm Water Utility Fees on property tax bills. The City added new properties and re-evaluated other properties, which attributed to the increase of \$401,340 in operating revenues. Operating expenses increased by \$3,096. At year-end, net position totaled \$2,938,612 up by \$1,503,752 from the June 30, 2015 total of \$1,434,860.

Solid Waste Fund – Operating revenue increased by \$33,567 and operating expenses increased by \$134,408. The two major cause of the rise in the current year operating expenses are increases in personal and supplies. At year-end, net position totaled \$(221,130) a increase of \$688,094 from the June 30, 2015.

FUND ANALYSIS

Governmental Funds

Governmental Funds are reported in the Fund Statements with a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$22,184,637 compared to a balance of \$19,693,185 at June 30, 2015. Of this year-end total, \$9,523,551 is unassigned indicating availability for continuing City service delivery requirements.

Legally restricted fund balances include \$11,503,730 set aside for debt service, capital projects and public safety purposes. The total Ending fund balances of governmental funds show an increase/decrease of \$2,491,452 over fiscal year 2015.

Major Governmental Fund

General Fund - The General Fund is the City's only major governmental fund, the primary operating fund, and the largest source of day-to-day service delivery. The ending unassigned fund balance represents an equivalent of 33.31% of annual expenditures.

Total General fund Property and Local Option Sales taxes increased by \$2,107,853 or 14.35% from the 2015. 2015 tax revenues were \$26,367,894 compared to \$23,678,993 for fiscal year 2015.

In fiscal year 2016, the General fund recognized \$2,155,969 more in revenues than 2015 total revenues. The fiscal year 2016 General fund expenditures increased by \$2,251,367 when compared to 2015 expenditures. The net change in fund balance was an increase of \$4,019,729 from fiscal year 2015.

The most significant changes from fiscal year 2016 are described below.

- Public safety expenditures increased by \$797,743 due to increased personnel, supply and vehicle purchased.
- General government cost increased \$561,055 for personnel and purchase services. The City staff many key positions that had been vacant and reallocated resources for more efficient and efficient operations.

Proprietary Funds

Proprietary fund statements share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status. The business-type activities analysis above discusses the City's enterprise funds.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original revenue budget for fiscal year 2016 was not amended. Total revenues were \$31,773,234, \$2,183,915 more than budgeted amounts. The major revenue streams in the original budget are property and sales taxes, these revenues were approximately \$3,174,766 more than what was budgeted. Property values increased and the economy showed a slight improvement, thus property and sales taxes increased. Licenses and permits revenues also exceeded budgeted expectation by \$187,693. In total, the City realized an approximate 1.13% of the projected revenue budget.

The actual expenditures were \$31,901,695 or approximately 3.03% below the budget. The main factors include the following:

- Public Safety Fire was \$741,524 less than budget.
- Public works was \$242,108 less than budgeted.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The City's investment in capital assets, net of accumulated depreciation, for governmental and business-type activities as of June 30, 2016, was \$\$41,523,032 and \$23,479,222 respectively. See Note 3-E for additional information about changes in capital assets during the fiscal year and outstanding at the end of the year.

The following table provides a summary of capital asset activity:

The Tax Allocation Bonds will be paid off in period ending in 2026. The business-type activities Building Authority Bonds will be retired over a period ending in 2035.

See Note 3-H for additional information about the City's long-term debt.

A SUMMARY OF THE ECONOMIC CONDITIONS AFFECTING THE CITY

The City is included in the Atlanta, Georgia Metropolitan area, with close proximity to Hartsfield-Jackson International airport. The City has an estimated 2010 population per the Census of 33,712. In addition, the City has with 13,333 housing units with an average household size of 2.50. Median house value is \$107,000 and median household income is \$38,759. Unemployment is estimated at 8.8% and is declining.

The City of East Point is the third largest city in Fulton County, which is most urbanized county in the state of Georgia. Neighborhoods are continually being revitalized as is downtown East Point, which is geared toward mixed-use development. New businesses are being developed and existing businesses are relocating to the City. The City has created the Corridors Tax Anticipation District to encourage improvements to downtown.

The primary revenue streams for the City are property and sales taxes. This is a good revenue mix as property taxes are as "inelastic" revenues, slow to adjust when there is a change in the economy. Sales taxes are "elastic", and adjust quickly to changes in the economy and is highly sensitive to fluctuations in the economy. The current uncertainty in the economy has definitely affected the City's 2016 revenue streams, and no-frills operational budget. Departments engaged in belt tightening measures and only funded critical capital projects. While we are seeing signs of a recovering economy; we are constantly monitoring our economic condition and positioning ourselves to make the necessary adjustments.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the City's finances, comply with finance-related laws and regulations, and demonstrate the City's commitment to public accountability. Questions concerning any of the information provided in this report or request for additional information should be addressed to the Finance Director, 2777 East Point Street, East Point, Georgia 30344.

City of East Point, Georgia Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Government-wide Statement of Activities For the Year Ended June 30, 2016

Net Changes In Fund Balances - Total Governmental Funds			\$ 2,491,447
Amounts reported for governmental activities in the statement of activities are diffrenent became	use		
Governmental funds report capital outlays as expenditures on the governmental fund type operating statement. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capitalized capital outlay exceeded depreciation expense in the current period.			
Depreciation expense Capital outlay	\$	(2,653,399) 3,437,796	784,397
The increase in other post employment benefits obligation are reported on the government-wide statement of activities but not at the governmental fund's operating statement.			
Balance @ 6/30/2016 Balance @ 6/30/2015	\$	(3,238,427) 2,351,808	(886,619)
Property taxes reported in the statement of activities that do not provide current financial resources are not reported as revenues at the fund financial reporting level.			
Deferred @ 6/30/2016 Deferred @ 6/30/2015	\$ 	4,016,337 (3,384,735)	631,602
Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.			15,509,350
Pension related items reported in the statement of activities that do not require the use of current financial resources in the governmental funds			3,304,890
Accured interest payable and expenses recorded in the government wide but not due to be recorded at fund level			171,741
Liability @ 6/30/2016 Liability @ 6/30/2015		(365,101) 536,842	,
Proceeds from long term debt is a source of funds in the governmental funds but increces long term liabilities in the statement of net position			(15,705,095)
Workers compenation payable reported in the statement of activities, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

The City of East Point, Georgia (the "City") was incorporated on August 10, 1887 under the provisions of Georgia Law 133, as amended. The City operates under a Council-Manager form of government and provides the following services: general government, judicial, public safety, public works, culture and recreation, economic and community development, water and sewer, electricity, storm water and solid waste disposal.

Note 1 - Summary of Significant Accounting Policies

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting.

The most significant of the City's accounting policies are described below.

1-A. Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the City consists of all funds, departments, boards and agencies that are not legally separate from the City. For the City, this entity includes component units as described below.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organizations; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to the organization; or the City is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the City in that the City approves the budget, levies their taxes or issues their debt.

The City's component units are presented either as "blended" or "discretely presented." If blended, it is reported as if it were a fund of the City throughout the year. It is included at both the government-wide and fund financial reporting levels.

Discretely presented component units are reported only at the government-wide financial reporting level. The component unit columns included on the government-wide financial statements identify the financial data of the City's discretely presented component units. They are reported separately to emphasize that they are legally separate from the City.

A brief description of the blended component units are as follow:

East Point Building Authority (The Authority) - The Authority was established to acquire, construct and equip capital projects for the City. The Mayor and City Council appoint members of the Authority. The City has lease agreements that require it makes lease payments to the Authority in amounts equivalent to the principal and interest on the Authority's outstanding debt. Capital assets owned by the Authority are included in capital assets; related debt and debt service are included in long-term debt in the government-wide financial statements and in the debt service fund. Assets owned by the Authority and leased for use by enterprise funds are included in the enterprise funds, along with the related capital debt. The Authority does not issue separate financial statements.

City of East Point Retirement Plan (the Plan) Pension Trust Fund. The City provides pension benefits to its employees through the City of East Point Employees Retirement Plan (the Plan). The Retirement Committee for the Employees of the City of East Point administers the Plan. Separate audited financial statement for the Plan may be obtained by writing to the City's Clerk office at 1526 East Forrest Avenue, Suite 400 East Point, Georgia 30344.

Note 1 - Summary of Significant Accounting Policies (Continued)

The following component units are discretely presented in the reporting entity:

East Point Business and Industrial Development Authority (EPBIDA) and the Downtown Development Authority of East Point (DDAEP) - The EPBIDA and the DDAEP were established to assist in the promotion, rejuvenation and commercial development of the City. The board members of the Authorities are appointed by the City Council. The Authorities receive a substantial portion of their operating revenues and all of their office facilities from the City. While these entities are legally established as two separate authorities, they are operated and reported on as one entity. The EPBIDA and the DDAEP do not issue separate financial statements.

Keep East Point Beautiful - Keep East Point Beautiful (KEPB), formally known as East Point Clean Community System, was established to promote public interest in the general improvement of the environment of the City of East Point. It receives substantially all of its operating revenues from the City. The directors of the System are appointed by the City Council. The KEPB does not issue separate financial statements.

1-B. Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net position, a statement of activities and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements - The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the City as a whole. The primary government and the discretely presented component units are presented separately within these financial statements with the focus on the primary government. Fiduciary activities are not included at the government-wide reporting level. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by taxes and City general revenues, from business-type activities, generally financed in whole or in part with fees charged to external customers. The operating activity of the internal service funds is eliminated to avoid duplicating revenues and expenses.

The statement of net position presents the financial position of the governmental and business-type activities of the City and it's discretely presented component units at year-end.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City's governmental activities, for each identifiable activity of the business-type activities of the City and for each major component unit. Direct expenses are those that are specifically associated with a function and therefore clearly identifiable to that particular function.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees and other charges to users of the City's services; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses.

For identifying to which function program revenue pertains, the determining factor for *charges for services* is which function *generates* the revenue. For *grants and contributions*, the determining factor is to which functions the revenues are *restricted*.

Taxes and other revenue sources not properly included with program revenues are reported as general revenues of the City. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business activity is self-financing or draws from the general revenues of the City.

Note 1 - Summary of Significant Accounting Policies (Continued)

Fund Financial Statements - During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. Fund financial statements are provided for governmental, proprietary, and fiduciary funds.

Major individual governmental and enterprise funds are reported in separate columns with composite columns for non-major funds. The internal service funds are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

Fund Accounting - The City uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The City uses three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The City reports the difference between governmental fund assets plus deferred outflows of resources and liabilities plus deferred inflows of resources as fund balance. The following are the City's major governmental funds:

General Fund - The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the City for any purpose provided it is expended or transferred according to the general laws of Georgia.

Proprietary Funds - Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service. The following are the City's major enterprise funds.

Water and Sewer Fund - This fund provides water and sewer services to City residents.

Electric Fund – This fund provides electrical services to City residents.

Proprietary Funds- Non Major Funds:

Solid Waste Fund - This fund provides sanitation services to City residents.

Storm Water Fund – This fund provides storm water services to City residents.

Internal Service Fund – The internal service fund accounts for the operation and administration activity of the motor transport and IT programs of the City.

Fiduciary Funds - Fiduciary fund reporting focuses on net position. The City's fiduciary funds include pension trust funds and an agency fund. The pension trust fund provides pensions to City employees and City elected officials. The agency fund collects municipal court fines and forwards them to the general fund. The agency fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations.

Note 1 Summary of Significant Accounting Policies (Continued)

1-C. Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets plus deferred outflows of resources and all liabilities plus deferred inflows of resources associated with the operation of the City are included on the statement of net position. The statement of activities reports revenues and expenses.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Like the government-wide statements, all proprietary fund types and pension trust funds are accounted for on a flow of economic resources measurement focus on both financial reporting levels. All assets plus deferred outflows of resources and all liabilities plus deferred inflows of resources associated with the operation of these funds are included on the statements of net position. The statements of revenues, expenses and changes in fund net position present increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

1-D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, governmental funds use the modified accrual basis of accounting and fiduciary funds use the accrual basis of accounting at both reporting levels. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the calendar year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current calendar year. For the City, the phrase "available for exchange transactions" means expected to be received within 60 days of year-end.

Revenues - Non-exchange Transactions - Non-exchange transactions in which the City receives value without directly giving equal value in return, include sales tax, property taxes, grants, and donations. On an accrual basis, revenue from sales tax is recognized in the period in which the taxable sale takes place. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied, (Note 3-B). Revenue from grants and donations is recognized in the calendar year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions also must be available (i.e., collected within 60 days subsequent to year end) before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be susceptible to accrual: property taxes, sales taxes and federal and state grants.

Note 1 - Summary of Significant Accounting Policies (Continued)

Unearned Revenue - Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Deferred Inflows of Financial Resources - The government fund financial statements, revenues are deferred in flows for:

- Grants and entitlements received before the eligibility requirements are met (e.g., cash advances)
- Property taxes receivable not collected within 60 days of year-end.

Deferred Outflows of Financial Resources - The government fund financial statements, assets are deferred out flows for:

- Prepaid items paid before services are rendered or the City becomes obligated.
- Investments earnings that will be used to paid future liabilities.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred, if measurable. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due. if measurable.

1-E. Assets, Liabilities and Fund Equity

1-E-1. Cash, Cash Equivalents, and Investments

Cash and Cash Equivalents - Cash and cash equivalents include amounts in demand and time deposits as well as short-term investments with a maturity date within three months of the date acquired by the City. Cash and cash equivalents are reported on balance sheets, statements of net position and in cash flow statements.

Cash balances of most City funds are pooled and invested. Interest earned from investments purchased with pooled cash is allocated to each fund based on the fund's average equity balance in the pooled fund.

Investments - The City is authorized by the City charter and Georgia statutes to invest in:

- Obligations of the State of Georgia or of any other states
- Obligations of the United States Government
- Obligations fully insured or guaranteed by the United States Government or United States Government Agency
- Obligations of any corporation of the United States Government
- Prime bankers' acceptances
- The State of Georgia local government investment pool (i.e., Georgia Fund I)
- Repurchase agreements
- Obligations of the other political subdivisions of the State of Georgia

Assets of the City's pension plans are invested in accordance with Georgia statutes. These statutes authorize the City to invest these assets in:

- Obligations of the United States Treasury or its agencies and instrumentalities,
- Bonds of the State of Georgia and its agencies, instrumentalities and political subdivisions,
- Certificates of deposit of national or state banks that are fully insured or collateralized by United States
 obligations,
- Common stocks,
- Money market instruments, and
- Corporate bonds and debentures, which are not in default as to principal and interest.

Investments of the City are stated at fair value based upon quoted market prices.

Note 1 - Summary of Significant Accounting Policies (Continued)

For the City's pension plan, securities traded on the national securities markets are valued at the last reported sales price on the last business day of the fiscal year. Investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at fair value determined by the trustee on the last reported bid and asked prices. Short term investments, corporate bonds, U.S. Government agency obligations and corporate stock are reported at fair value as of December 31, 2015 and 2014.

1-E-2. Receivables

All trade and property tax receivables are reported net of an allowance for uncollectables, where applicable.

1-E-3. Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances.

1-E-4. Consumable Inventories

On the government-wide financial statements, inventories are presented at a moving average cost basis and are expensed when used (i.e., the consumption method).

On the fund financial statements, inventories of governmental funds and proprietary funds are stated a moving average cost basis. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure in the governmental fund types when consumed. Inventories of the proprietary funds are expensed when consumed.

1-E-5. Prepaid Items

Payments made to vendors for services that will benefit periods beyond the year ending June 30, 2016, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is stated as non-expendable, as this amount is not available for general appropriation.

1-E-6. Restricted Assets

Certain proceeds of enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. Restricted assets in the governmental funds relate to specific programs for which cash is restricted for use by the donor or the nature of the program, debt service payments and for capital projects.

1-E-7. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds or contributions. The City reports these assets in the governmental activities column of the government-wide statement of net position but does not report these assets in the governmental fund financial statements. Capital assets utilized by proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the proprietary fund's statement of net position.

Note 1 - Summary of Significant Accounting Policies (Continued)

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of \$5,000. The City's infrastructure consists of roads, bridges, storm sewers, traffic islands, street lights, traffic signals and street signs. Improvements to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Interest incurred during the construction of capital assets utilized by the enterprise funds is capitalized, less the amount of interest earned during the same qualifying period.

The City has elected not to capitalize works of art and historical treasures based on its policy that these items are not held for financial gain, they will be preserved and any proceeds from the sale of the items will be used to acquire other collections.

All reported capital assets are depreciated except for land, right-of-ways, water rights and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement.

Depreciation is computed using the straight-line method over the following useful lives:

Description	Activities	Activities	KEPB
I and immersioners	10-25 years	10-25 years	
Land improvements		•	-
Buildings	20-50 years	20-50 years	-
Building improvements	20 years	20 years	-
Machinery and equipment	3-10 years	5-20 years	7 years
Furniture and fixtures	3-8 years	3-8 years	3-8 years
Vehicles	5-8 years	5-8 years	-
Infrastructure	25-50 years	10-50 years	-

1-E-8. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

All compensated absence liabilities include salary-related payments, where applicable.

The total compensated absence liability is reported on the government-wide financial statements. Proprietary funds report the total compensated liability in each individual fund at the fund reporting level. Governmental funds report the compensated absence liability at the fund reporting level only "when due."

1-E-9. Workers' Compensation

The reserves for claims are determined when a probable loss has occurred and the amount of the loss can be reasonably estimated. The reserves are conservatively estimated with no interest imputed in determining the amount of the claims or reserves (Note 4-A).

The total workers' compensation liability is reported on the government-wide financial statements. Proprietary funds report the total workers' compensation liability in each individual fund at the fund reporting level. Governmental funds report the workers' compensation liability at the fund reporting level only "when due."

Note 1 - Summary of Significant Accounting Policies (Continued)

1-E-10. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of these funds. Bonds and capital leases are recognized as liabilities in the governmental fund financial statements "when due."

1-E-11. Bond Premiums, Discounts, Issuance Costs and Bond Refunding Gains and Losses

On the government-wide statement of net position and the proprietary fund type statement of net assets, bond premiums and discounts are netted against bonds payable. On the government-wide and proprietary fund type statement of activities, bond premiums and discounts, are deferred and amortized over the life of the bonds using the effective interest method and bond refunding gains and losses are reported as deferred inflows or outflows of resources and amortized over the shorter of the life of refunding debt or the refunded debt using the straight-line method. Bond issuance costs are recognized as current expenses in the reporting period in which they are incurred.

At the government fund reporting level, bond premiums and discounts are reported as other financing sources and uses, separately from the face amount of the bonds issued. Bond issuance costs are reported as debt service expenditures.

1-E-12. Fund Equity (See Note 3-K)

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- Nonspendable Fund balances are reported as nonspendable when amounts cannot be spent because
 they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b)
 legally or contractually required to be maintained intact.
- Restricted Fund balances are reported as restricted when there are limitations imposed on their use
 either through the enabling legislation adopted by the City Council or through external restrictions
 imposed by creditors, grantors or laws or regulations of other governments.
- Committed Fund balances are reported as committed when they can be used only for specific
 purposes, pursuant to constraints imposed by formal action of the City Council through the approval of
 a motion to adopt an ordinance prior to the end of the fiscal year. Only, the City Council may modify
 or rescind the commitment by adopting another ordinance to remove or revise the limitation as passed.
- Assigned Fund balances are reported as assigned when amounts are constrained by the City's intent
 to be used for specific purposes, but are neither restricted nor committed. Through resolution, the City
 Council has authorized the City manager or designee to assign fund balances.
- Unassigned Fund balances are reported as unassigned as the residual amount when the balances do
 not meet any of the above criterion. The City reports positive unassigned fund balance only in the
 general fund. Negative unassigned fund balances may be reported in all other funds.

Note 1 - Summary of Significant Accounting Policies (Continued)

Flow Assumptions – When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

Net Position - Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has not spent) for the acquisition, construction or improvement of those assets. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net position are reported as unrestricted.

1-E-13. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for water and sewer, electric, storm water and sanitation services.

Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of each fund. All other revenues and expenses are classified as non-operating including investment earnings, withdrawals from the Municipal Competitive Trust, interest expense and the gain or loss on the disposition of capital assets.

1-E-14. Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets (e.g. developers), and grants or outside contributions of resources restricted to capital acquisition and construction.

1-E-15. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. On the government-wide statement of activities, the exchange transactions between the internal service funds and the user funds are eliminated. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses section in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business type activities column are eliminated.

1-E-16. Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 1 - Summary of Significant Accounting Policies (Continued)

1-E-17. Pensions:

For the purpose of measuring the net pension liability, deferred outflows and deferred inflows of resources related to pensions and pensions expense, information about the fiduciary net position of the City off East Point Employees Retirement Plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions are recognized when due and payable in accordance with the benefits terms. Investments are reported at fair value.

1-E-18. Comparative Data/Reclassifications

Comparative data for the prior year have been presented throughout the financial statements in order to provide an understanding of the changes in the financial position and results of operations.

Note-2 Stewardship, Compliance and Accountability

2-A. Budgetary Information

The City adopts an annual operating budget for all governmental funds except the capital projects fund, which have an adopted project budget. Budgets are adopted on a basis consistent with GAAP with the exception of the capital projects funds, which have project length budgets, rather than annual budgets. The City adopts budgets for its enterprise funds and internal service fund, however, the reporting of the budget to actual comparison is not required.

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each adopted annual operating budget generally is the department level as defined in the adopted budget, within each individual fund. The City manager is authorized to transfer appropriations within a single department from one line to another. Any change in total to a fund or departmental appropriation within a fund requires approval of the City Council.

The original 2016 budget was amended during the year. All unexpended annual appropriations lapse at year-end.

2-B. Excess of Expenditures and Other Financing Uses over Appropriations

The following departments/functions overspent the final 2016 annual budget:

Building and Grounds	\$ 5,770
Municipal Court	\$ 51,388
Administrative	\$ 20,901
Police	\$ 524,957
Parks and Recreation	\$ 60,031

The following funds had deficits as of June 30,2016:

Restricted Grants	\$ 486,098
Police Grant	\$ 83,506
Solid Waste	\$ 221,130

Note-2 Stewardship, Compliance and Accountability (Continued)

2-C. Encumbrances. As discussed in note 2-A, Budgetary Information, Budgetary basis of accounting, encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. Encumbrances outstanding at year end is as follow:

General fund	5,271.00
Nonmajor govermental funds	692,619
Total	\$ 697,890

Note 3 - Detailed Notes on All Funds

3-A. Deposits and Investments

Deposits - State statutes require banks holding public funds to secure these funds by FDIC insurance, securities pledged at par value, and surety bonds at face value in combined aggregate totaling not less than 110 percent of the public funds held.

Custodial Credit Risk – Deposits – the custodial credit risk for deposits is the risk that, in the event of a bank failure, the City's deposits or the securities collateralizing these deposits may not be recovered.

All of the bank balances were covered by federal depository insurance, the FDIC's Transaction Account Guarantee (TAG) Program, or by collateral held by the City's agent or pledging financial institution. Under the TAG program, through June 30, 2014, all noninterest-bearing transaction accounts are fully guaranteed by the FDIC for the entire amount in the account. Coverage under the TAG Program is in addition to and separate from the coverage available under the FDIC's general deposit insurance rules.

Georgia Fund 1, created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard and Poor's criteria for AAAm rated money market funds. However, Georgia Fund 1 operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1.00 per share value). Net fair value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on a \$1.00 per share value. The fair value of the City's position in the pool is the same as the value of pool shares (\$1 per share value). The regulatory oversight agency for Georgia Fund 1 is the Office of State Treasurer.

Funds included in this Pool are not required to be collateralized.

The fair value of the City's position in the pool approximates the value of the City's pool shares. Credit risk, value, and interest risk at June 30, 2016 are as follows:

Credit Risk	Value	Interest Risk			
AAA rated	\$3,411	59 day WAM			

The City classifies its investments in Georgia Fund I as cash and cash equivalents.

Also, the Keep East Point Beautiful deposits and the East Point Business and Industrial Development Authority's deposits were covered either by FDIC coverage or were entirely insured or collateralized with securities held by the component units' agent in the component units' name.

Note 3 - Detailed Notes on All Funds (Continued)

Investments (Governmental and Enterprise Funds)

Interest Rate Risk — Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from volatility of interest rates.

June 30, 2016, the City had the following investments and maturities:

	Maturity Period						
Investment		Fair		_			
Туре		Value	U	nder 30 days			
Money Market Funds	\$	23,372,918	\$	23,372,918			

Because of the maturity date, the investments above have been reported as cash equivalents in the accompanying financial statements.

Credit Quality Risk - Credit quality risk is that an issuer or other counterparty to an investment will not fulfill its obligations. The City's investment policy does not address credit risk. The above money market funds are rated "AAA."

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of a bank or investment firm failure, the City's investments may not be recovered. The City's investment policy does not address custodial credit risk

Concentration of Credit Risk — Concentration of credit risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. The City does not have a formally adopted investment policy for managing concentration of credit risk. The only investments in excess of 5% of the City's investment portfolio are federal securities and money market funds.

Deposits (Pension Trust Fund)

Plan assets are to be invested in investment authorized by the Georgia Public Retirement Systems Investment Authority Law, OCGA 47-20-80. Those investments include obligations of the U.S Treasury or Agencies and instrumentalities, collateralized mortgage obligations, asset and mortgage back securities, taxable bonds that are obligation of any state and its agencies, instrumentalities, and political subdivisions, and in certificates of deposit of national or state banks that are fully insured, or collateralized by United States obligations, additionally, the plan is authorized to invest in common stocks, money market instruments, and corporate bonds and debentures, which are not in default as to principal and interest.

Credit Risk - Credit risk is the risk that an insurer or other party to an investment will not fulfill its obligations to the plan. Stale law limits investment to investment grade securities.

For equity investment, the decision as to individual security selection, security size and quality, number of industries and holding s, current income level, turnover, and other tools employed by equity investment managers are left to each manager's discretion, except that investment in micro-cap stocks (those securities with market capitalization less than \$100 million) are prohibited.

Note 3 - Detailed Notes on All Funds (Continued)

For fixed income investments, decisions as to individual security selection, turnover, number of industries and holdings and the other tools employed by fixed income investment managers are left to each manager's discretion, subject to the standards of fiduciary prudence. The minimum quality rating of each fixed income security in any separate account portfolio is to be BAA or better.

At December 31, 2015, the Plan had \$78,287,951 invested in the type of investment as categorized by credit risk.

Investment	 Fair value	Credit Quality
United States Treasury notes and bonds	\$ 3,436,007	AA+
United States government agencies	3,906,474	AA+
Municipal bonds	80,481	AA
Corporate bonds	1,456,298	AAA
Corporate bonds	2,595,941	AA+
Corporate bonds	585,681	AA
Corporate bonds	810,679	AA-
Corporate bonds	951,090	A+
Corporate bonds	3,824,455	Α
Corporate bonds	4,186,679	A-
Corporate bonds	4,479,777	BBB+
Corporate bonds	3,656,609	BBB
Corporate bonds	590,424	BBB-
Corporate bonds	89,832	BB+
Convertible preferred stock	878,693	BBB+
Convertible preferred stock	1,447,078	BBB
Convertible preferred stock	1,147,090	BBB-
Convertible preferred stock	173,392	BB+
Mutual Funds	6,411,654	Not rated
Common stock domestic	36,346,674	Not rated
Common stock foreign	 1,232,943	Not rated
	\$ 78,287,951	

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. At December 31, 2015, the Pension Trust Fund had the following investments and maturities:

Note 3 - Detailed Notes on All Funds (Continued)

Investment Type	December 31,		Total Investment	Duration (Years)
	*			
U.S. Treasury notes and bonds	\$	3,436,007	4.39%	5.93
U.S. government agencies		3,906,474	4.99%	7.16
Municipal bonds		80,481	0.10%	2.50
Corporate bonds		23,227,465	29.67%	6.35
Mutual funds		6,411,654	8.19%	-
Preferred Stock		3,646,253	4.66%	-
Common - stock domestic		36,346,674	46.43%	-
Common - stock foreign		1,232,943	1.57%	
Total		78,287,951	100.00%	

Concentration of Credit Risk – Concentration of credit risk of is the risk of loss that may be attributed to the magnitude of government's investment in a single issue. The Plan is generally not authorized to hold more than 5% of plan assets in the securities of any individual security or in the securities of a single cooperate issue. Individual asset managers may hold positions above 5% so long as the aggregate holding across asset managers does not exceed 5% of Plan assets. At December 31, 2015, the Plan was not exposed to concentration of credit risk

Foreign Currency Risk – At December 31, 2015, the Plan had no exposure to foreign currency risk. The plan's investment foreign stock of \$1,232,943 represents U.S dollars invested in the stock of foreign companies.

Credit Quality Risk – Credit quality risk is that an issuer or other counterparty to an investment will not fulfill its obligations. The City's pension investment policy does not address custodial credit risk. The above U.S. Agency Obligations and money market funds are both rated "AA+." The corporate debt is rated A-.within a range of A through AAA.

Doolad

Cash and investment reconciliation at June 30, 2016:

		Pooled Cash and h Equivalents	I	nvestments	Total

Note 3 - Detailed Notes on All Funds (Continued)

3-B. Receivables

Receivables at June 30, 2016, consisted of taxes, accounts (billings for user charges) and intergovernmental receivables arising from grants.

Receivables and payables are recorded on the City's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectability.

The allowance for uncollectables is follows:

•	General fund	\$ 882,962
•	Water and sewerage system fund	\$ 1,626,929
•	Electric system fund	\$ 2,335,688
•	Solid waste fund	\$ 457,165
•	Storm water Fund	\$ 192,598

3-C. Property Taxes

Property taxes for the June 30, 2016 fiscal year were levied on October 15, 2015, based on property values assessed as of January 1, 2015. The taxes were billed December 15, 2015 and were payable within 60 days of the billing date. An interest penalty of 10% per annum is charged on property taxes not paid within 90 days of the due date. Property taxes become an enforceable lien on April 15, 2016.

3-D. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents consumption of net position *Note 3 - Detailed Notes on All Funds (Continued)*

that applies to a future period (s) so will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports the deferred outflow of resources (\$8,589,338) on funding reported in the government-wide statement of net position. The deferred outflow of resources resulted from the difference in the net pension investment earnings and the refunding of carrying value of refunded debt and its reacquisition price. The amounts are deferred and amortized over five year period for the difference in the net pension investment earnings, and the shorter of the life of the refunded debt.

Fund Type Activity	 Amount	Difference in Pension Investment		Bond efunding Charges
Governmental activities	\$ 4,092,618	\$	4,092,618	\$ -
Business type activities	 2,459,733		1,551,040	 908,693
Total	\$ 6,552,351	\$	5,643,658	\$ 908,693

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net

position that applies to a future period (s) and so will not be recognized as an inflow of resources (revenue) until that time. The City reports two of these items. One item, the property taxes, is reported as deferred inflows of resources since they are recognized as receivables before the period for which the taxes are levied. These amounts also are reported on the government-wide statement of net position.

The second item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report deferred inflow of resources from unavailable revenues (\$4,040,445). These amounts are deferred and recognized as deferred inflows of resources in the period that the amount becomes available. These amounts also are reported on the government-wide statement of net position.

These amounts are reported as follows:

Fund	Proj	perty Taxes	Diffrences in Expected and Actual Experience			
General Nonmajor governmental	\$	3,821,271 219,174	\$	839,337 -		
Business type activities		***	***************************************	320,517		
Total	\$	4,040,445	\$	1,159,854

3-F. - Interfund Balances and Transfers

Interfund balances at June 30, 2016, consisted of interfund loans between funds for cash flow purposes and the reclassification of cash overdrafts in the City's cash and investment pool.

 General Funds		Nonmajor overnmental Funds	V	Vater and Sewer Fund	Electric Fund		Nonmajor Enterprise Fund	Internal Service Fund		Total
\$ -	\$	1,821,238	\$	-	\$ 31,609	\$	940,477	\$ 77,272	\$	2,870,596
101,572		528,916		-	2,427,511		109,182	3,662		3,170,843
86,366		-		-	299,553		479	72,019		458,417
292,666		-		59,619	107,326		260	87,888		547,759
 95,588			_		 14,463		62,671	 19,530	***************************************	192,252
\$ 576,192	_\$	2,350,154	\$	59,619	\$ 2,880,462	_\$_	1,113,069	\$ 260,371	\$	7,239,867

Interfund transfers for the year ended June 30, 2016, consisted of the following:

		Transfers in					
		Nonmajor General Government					
Transfers out	Fund		Funds			Total	
General Fund	\$	_	\$	665,550	\$	665,550	
Nonmajor Governmental Funds		1,534,162		767,081		2,301,243	
Electric Fund		-		2,441,609		2,441,609	
Total	\$	1,534,162	\$	3,874,240	\$	5,408,402	

Transfers are used to report revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations and to return money to the fund from which it was originally provided once a project is completed. More specifically, the transfer from the nonmajor governmental funds to the general fund costs of the hotel/motel taxes collected in the hotel/motel tax fund.

Note 3 - Detailed Notes on All Funds (Continued)

All City transfers either occur on a regular basis or are consistent with the purpose of the fund making the transfer.

3-G. Long-Term Debt

Governmental Activities Bonds and Capital Leases - The following is a summary of the outstanding long-term bonds and capital leases at June 30, 2016:

2015 Tax Allocation Bonds (Camp Creek) – In 2015, the City issued tax allocation bonds, Series 2015, in the amount of \$13,925,000 with an average coupon rate of 3.71%. Debt service payment for the Series 2015 Bonds are payable on February 1 and August 1 of each year with principal maturing February 1, 2026.

Annual debt service requirements to amortize this debt, as of June 30, 2016 are as follows:

August 1,	 Principal		Interest	Total		
2016	\$ 1,200,000	\$	410,669	\$	1,610,669	
2017	1,115,000		491,125		1,606,125

2021		-		61,500		61,500	
2022-2027		-		369,000		369,000	
2028-2032				307,500		307,500	
2033-2037				307,500		307,500	
2038-2040		1,200,000		215,250		1,415,250	
Total	\$	1,200,000	\$	1,518,879	\$	2,718,879	

2011 Building Authority Revenue Bonds – In 2011, the City issued revenue bonds in the amount of \$1,150,000 at an interest rate of 6.1%. The purpose of the bonds is to purchase property known as "the Wachovia Bank Building" and make needed renovations. Semi-annual principal installments are made in decreasing amounts with principal maturing December 1, 2025. There is an intergovernmental agreement between the City and the East Point Building Authority.

Annual debt service requirements to amortize the revenue bonds, as of June 30, 2016 are as follows:

Year	I	Principal		Interest		Total
					\$	_ `
2017		71,500		48,726	-	120,226
2018		73,718		44,235		117,953
2019		76,003		39,605		115,608
2020		78,360		34,921		113,281
2021		78,360		29,911		108,271
2022-2026		445,548		70,255		515,803
			·	_		
Total	\$	823,489	\$	267,653	\$	1,091,142

Note 3 - Detailed Notes on All Funds (Continued)

In December 2015, the City and Fulton County Board of Education ("the Board") entered into an agreement to purchase property located on Norman Berry Drive, East Point, Georgia. The purchase price was \$600,000. The City and the Board entered into an intergovernmental agreement whereas, in lieu of cash, the City will issue a "Utility Credit" of \$10,000 per month for 60 months commencing January, 2016 against the Board's utility billings from the City. The outstanding balance of utility credits due to the Board as of June 30, 2016 is as follows:

Year	Utility Credit	P	Amount
2017	Jul 2016- Jun 2017	\$	120,000
2018	Jul 2017 - Jun 2018		120,000
2019	Jul 2018 - Jun 2019		120,000
2020	Jul 2019 - Jun 2020		120,000
2021	Jul 2020 - Dec 2020		60,000
Total		\$	540,000

Note 3 - Detailed Notes on All Funds (Continued)

Capital Leases – The City has entered into numerous lease agreements relative to its governmental activities with Kansas State Bank. The following equipment and improvements were included in these capital leases:

Lease	Lease	Lease	Interest	Initial Lease
Number	Date	Purpose	Rate	Amount
44	July 10, 2011	Tractor Mower	4.29%	88,132
45	July 10, 2011	Salt /Sand spreader	4.29%	171,285
46	July 10, 2011	Asphalt equipment	3.79%	140,932
47	March 3, 2014	Fire pumper apparatus	2.50%	816,600

Annual debt service requirements to amortize the capital leases as of June 30, 2016 is as follows:

Year	Year		ncipal Interest			Total		
2017		227,979		10,553		238,532		
2018		154,222		9,621		163,843		
Total	\$	382,201	\$	20,174	\$	402,375		

As of June 30, 2016 the gross amount of capital assets under capital leases for the city's governmental activities is \$1,216,949 and the related accumulated depreciation is \$265,301.

Business-type Activity Debt - The City reports three building authority debt issuances and a variety of capital leases for business-type activities:

2006 Building Authority Revenue Bonds – In June 2006, the City issued revenue bonds in the amount of \$50,195,000 at an interest rate ranging from 4% - 5%, to fund a water and sewer project. Annual principal installments range from \$790,000 to \$3,190,000 with principal maturing in 2035.

Note 3 - Detailed Notes on All Funds (Continued)

Annual debt service requirements to amortize this deb, as of June 30, 2016 is as follows:

Fiscal			
Year	Principal	Interest	Total
2017	1,360,000	1,975,195	3,335,195
2018	1,415,000	1,920,796	3,335,796
2019	1,485,000	1,850,045	3,335,045
2020	1,560,000	1,775,795	3,335,795
2021	1,640,000	1,697,795	3,337,795

Note 3 - Detailed Notes on All Funds (Continued)

The general fund services the governmental activities Building Authority bonds and capital leases. The tax allocation bonds are being serviced by the tax allocation district funds 2015 Camp Creek and 2015 Corridor. The business-type activities revenue bonds are serviced by the water fund and the business-type activities capital leases are being serviced by the water and sewer, electric, solid waste and the storm water funds. Compensated absences are being paid by the fund in which the employee works, primarily the general fund, the enterprise funds and the internal service fund. The liabilities for worker's compensation and claims are being paid by the general fund.

Arbitrage Rebate – The arbitrage rebate liability is treated as a claim or judgment upon occurrence, on all City obligations. Certain City long-term debt obligations are subject to Internal Revenue Code Section 148, which requires that interest earned on proceeds from the issuance of tax-exempt debt be rebated to the Federal government to the extent that those earnings exceed the interest costs on the related tax-exempt debt. At June 30, 2016, the City has no arbitrage rebate liability on any of its tax-exempt debt issuances.

3-I. Pension Plan

The City provides pension benefits to its employee through the City of East Point Employees Retirement Plan (the Plan). The Retirement Committee for the Employees of the City of East Point administers the Plan. The City's general fund shall be required to liquidate any net pension obligation or make up any deficiencies when benefit payments are due. The cost of administering the Plan is primarily paid by investment earnings.

The City's pension is part of the City financial reporting entity and is therefore, included in this financial statement as a pension trust fund. Furthermore, the City issues publically an available financial statement report for the Plan. The report may be obtained by writing to the City Clerk's office at the following address:

City of East Point, 1526 East Forrest Avenue, Suite 400 East Point, Georgia 30344

Plan Description – The Plan is a single employer, contributory defined benefit pension plan. Effective July 1, 1998, the Plan covers all City employees employed prior to April 1, 1992. Also, effective July 1, 1998, the City established an additional class of eligible employees or class 5 for employees hired subsequent to March 31, 1992. These benefit provisions and all other requirements are established by State statute and City ordinance.

Benefits vast differently for each class of employee. The Plan defines each class as follows:

- Class 1 transferred from old plan on June 19, 1975.
- Class 2 general employees and elected officials hired before April 1, 1992.
- Class 3 police and fire employees hired before April 1, 1992.
- Class 5 Eligible full-time employees hired on or after April 1, 1992 (Mayor and City Council).

Note 3 - Detailed Notes on All Funds (Continued)

Vesting for each class is as follows:

- Class 1 vesting begins after 8 years of service.
- Classes 2 and 3 vesting begins after 10 years of service.
- Class 5

 police and firefighters vesting begins after 10 years of service, elected officials vesting begins after 5 years of service.

Normal retirement ages plus years of service required in order to receive benefits for each class are as follows:

- Class 1 50 years of age, plus 8 years of service.
- Class 2 full-time employees 65 years of age, plus 10 years of service.
- Class 3 55 years of age, plus 10 years of service.
- Class 5 65 years of age (55 for police officers and firefighters), plus 10 years of service; elected officials 60 years of age plus 5 years of service.

Early retirement is allowed for Class 2 and Class 3 employees if they are 50 years of age and have 10 years of service. The benefit payable immediately is the accrued benefit reduced by 3% for each year retirement precedes normal retirement date. Class 5 participants may retire as early as Age 55 (50 for Police Officers and Firefighters) with ten years of credited service using the applicable percentage. The Plan also provides death and disability benefits. These benefit provisions and all other requirements are established by State statute and City ordinance.

Fund Membership - At January 1, 2015, the date of the most recent actuarial valuation, there were 834 participants respectively, consisting of the following:

Retirees and beneficiaries currently receiving benefits	351
Terminated members entitled to but not yet receiving benefits	21
Current active employees vested	155
Non-vested	307_
Total	834

Funding Policy – The contribution requirements of plan members and the City are established in accordance with the applicable pension law. The City's funding policy provides for actuarially determined periodic contributions at rates that, for individual employees, increase gradually over time so that sufficient assets will be available to pay benefits when due. The City is currently contributing 58.3% of covered payroll and the active participants are contributing 6% of their base pay.

Net Pension Liability – The net pension liability (NPL) is the difference between the "Total Pension Liability" (TPL) and the Plan's "fiduciary net position" (FNP). The TPL is the present value of pension benefits that are allocated to current members due to past service by entry age normal actuarial cost method. The TPL includes benefits related to projected salary and service and automatic cost of living adjustments (COLA). In addition, ad hoc COLA are also included in the TPL to the extent they are substantively automatic. The FNP is determined on the same basis used by the pension plans. The City's NPL was measured on December 31, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Note 3 - Detailed Notes on All Funds (Continued)

Net Pension Liability:

Measurement Date	Dece	mber 31, 2015
Total Pension Liabilty	\$	119,169,260
Fiduciary Net Position	\$	80,569,741
Net Pension Liabilty	\$	38,855,095
Plan Fiduciary Position as a		67.61%
percentage of Total pension Liability		

A schedule of Net Pension Liability, in addition to the information above, (beginning with FY 2015) and is presented in the Required Supplementary Information section on page 67

Schedule of Changes in Net Pension Liability - Changes in the City's net pension liability presented below are calculated on the same basis as each of the plans. The Change in Net Pension Liability for the Plan for the year ended December 31, 2015 is as follows:

	Total Pension Liability (a)	Plan Net Position (b)	Pension Liability (a) - (b)
Changes for the year:			
Service cost	2,154,952	-	2,154,952
Interest	8,977,933	-	8,977,933
Benefit changes	-	-	-
Changes in assumptions	(1,486,574.00)	-	(1,486,574)
Contributions -Employer	-	9,504,258	(9,504,258)
Contributions -Employer	-	1,126,534	(1,126,534)
Net investment income	-	(471,734)	471,734
Refund of Contributions	(514,762)	(514,762)	-
Benefits paid	(7,818,041)	(7,818,041)	-
Plan administrative expenses	-	(257,170)	257,170
Net changes	1,313,508	1,569,085	(255,578)
Net pension liability, beginning	117,855,752	79,000,656	38,855,096
Net pension Liability, ending	\$ 119,169,260	\$ 80,569,741	\$ 38,599,518

Pension Expense – The pension cost for the year ended December 31, 2015 is \$5,171,495. The governmental activities column reports pension cost of \$3,742,390 and the enterprise funds report \$1,429,105.

Discount Rate - The blended discount rate used to measure the total pension liability is 7.75%. The projection of cash flows used to determine the discount rate assumed that the City would contribute the actuarially determined contribution in the future. The long-term expected rate of return on pension plan investment was determined using a log-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The discount rate determination does not use a municipal bond rate. Projected future benefit payments for all current plan members were projected through 2016.

Note 3 - Detailed Notes on All Funds (Continued)

Sensitivity of the net pension liability to changes in the discount rate - The following presents the net pension liability for each of the City's plan, calculated using the discount rate, as well as what the City's net pension liability would have been if it were calculated using a discount rate that is 1-percent-point lower and 1-percent-point higher than the current rate:

	 6.75%	 7.75%	8.75%
City's net pension liability	\$ 51,483,170	\$ 38,599,519	\$ 27,753,301

Schedule of Deferred Outflows and Inflow of Resources - Deferred outflows of resources and deferred inflows of resources by source reported by the City at June 30, 2016 for the plan are as follows:

	 Deferred outflows of Resources		erred inflows Resources
Differences between expected and actual experiences	\$ -	\$	1,159,854
Net difference between projected and actual earnings on plan investment	 5,643,658		_
Net pension Liability, ending	\$ 5,643,658	\$	1,159,854

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions at June 30, 2016 will be recognized in pension expense as follows:

Year ended June 30:	Deferred outflows of Resources	Deferred intflows of Resources	
2017	1 426 227	226 720	
2017 2018	1,436,327 1,436,327	326,730 326,720	
2019	1,436,327	326,720	
2020	1,334,675	179,694	

Note 3 - Detailed Notes on All Funds (Continued)

Actuarial Valuation Information - The City's actuarial valuation information is as follows:

Current Valuation Date	January 1, 2015
Actuarial Cost Method	Individual Entry Age - Normal
Amortization Method	Level percentage of payroll, Closed
Remianing Amortization Period	30 years
Asset Valuation Method	Five year smoothed market
Actuarial Assumptions:	
Investment Rate of Return	7.75%, compounded annually.
Projected Salary Increases	3.50%
Includes Inflation at	2.25%
Pre and post retirement mortality	RP-2000 Combined Mortality

The actuarial assumptions used in the January 1, 2014 valuation were based on the results of an experience study for the period. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2015 are summarized in the following table:

Target	Long-Term Expected
Allocation	Real Rate of Return
58 684	5.34%
	7.40%
	1.82%
	-0.26%
2.070	-0.2070
100.0%	
	Allocation 58.6% 4.4% 35.0% 2.0%

Defined Contribution Plan

The City's 401 Governmental Money Purchase Deferred Retirement Plan (the "Deferred Plan") is a defined contribution plan which is administered by ICMA-Retirement Corporation. Employees at the director level are eligible to participate in the deferred plan. The deferred plan participants can contribute a maximum of 6% of their annual salary with matching contribution of (6%-12%) made by the City depending on the number of years of service of the employee. The General Council of the City established and can amend the deferred Plan. At June 30, 2016 there were 10 participants in the deferred Plan with employees and employer contributing \$43,126 and \$45,605, respectively.

3J. Other Postemployment Benefits (OPEB)

The City of East Point Retiree Healthcare Plan (the "Healthcare Plan") is a single-employer defined benefit healthcare plan which provides Other Postemployment Benefits (OPEB) to eligible retirees, dependents and their beneficiaries.

Note 3 - Detailed Notes on All Funds (Continued)

The City Council have the authority to establish the benefit provisions and may amend them as necessary. The Healthcare Plan was established by legislative acts and functions in accordance with existing City laws. OPEB of City retirees includes health, dental, and vision care and life insurance. Separate financial statements are not prepared for the Healthcare Plan.

Funding Policy — The City has not advance-funded or established a funding methodology for the annual OPEB costs or to retire the net OPEB obligation. The City Council is the authority that sets the contribution rates for active employees and retirees. Active employees do not contribute and retirees pay approximately 40% of the premium. The balance of the premium is paid by the City. The City covers the cost of administering the plan.

Annual OPEB Cost and Net OPEB Obligation — The following table includes the City's annual OPEB cost for the year, the amount actually contributed to the plan, and the changes in the City's net OPEB obligation:

	6/30/2016		6/30/2015		
Normal cost Interest on normal costs Amortization (adjustments) of unfunded actuarial accrued liability (UAAL)	\$	1,073,092 140,195 1,485,098 (202,687)	\$	1,296,823 115,004 (287,509)	
Annual required contribution (ARC)		2,495,698		1,124,318	
Expected employer benefit payments		1,271,319		494,541	
Increase in net OPEB obligation		1,224,379		629,777	
Net OPEB obligation, beginning of year		3,504,868		2,875,091	
Net OPEB obligation, end of year		4,729,247	\$	3,504,868	

The governmental activities column reports a net OPEB obligation of \$3,238,420 and the enterprise funds report \$1,490,819 net OPEB obligation.

Funded Status and Funding Progress - The City's funding status based upon the most recent actuarial valuation follows:

				Sched	lule o	f Funding Progre	ess				
Editor :		(1)		(2)		(3)	(4	4)	(5)	(6))
				Actuarial						UAAL	as a
Plan	Ac	tuarial		Accrued		Unfunded	Fun	ided	Annual	Percent	age of
Year	V	alue	Lia	ability (AAL)	Α	AL/(UAAL)	Ra	tio	Covered	Cove	red
Ending	of	Assets		Entry Age		(2)-(1)	(2)	/(1)	 Payroll	Payr	oll
Manage Co.			-								
6/30/2016	\$	-	\$	25,680,368	\$	25,680,368		0.00%	\$ 17,920,581	1	43.3%

Note 3 - Detailed Notes on All Funds (Continued)

The annual OPEB cost for the last two fiscal years follows:

Schedule of Employer Contributions

Fiscal Year	Annual	Annual			
Ended	OPEB	OPEB OPEB		Net OPEB	
June 30,	Cost	Contribution	Contributed	Obligation	
2014	1,156,316	538,189	46.54%	3,504,868	
2015	1,124,318	494,541	43.99%	3,504,868	
2016	2,495,698	1,271,319	50.94%	4,729,247	

Actuarial Methods and Assumptions – Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The actuarial valuation involves estimates of the value of the reported amounts and assumptions about the probability of events or far into the future. Examples include assumptions of future employment, mortality and health care cost trends. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The City's actuarial valuation information is as follows:

Current Valuation Date	July 1, 2015
Actuarial Cost Method	Entry Age
Amortization Method	Dollar amount, Open
Remianing Amortization Period	25 years
Asset Valuation Method	Not Applicable
Actuarial Assumptions:	
Discount Rate	4.00%
Projected Salary Increases	4.00%
Includes Inflation at	2.30%
Health Care Cost Trend Rate	4.00%

3-K. Fund Equity

Fund Balances - Fund balances are classified as follows:

• Nonspendable – The following fund balances are nonspendable because they are not in spendable form:

General Fund:	
Prepaid items	\$ 62,188
Inventories	 1,095,168
Total	\$ 1.157.356

Note 3 - Detailed Notes on All Funds (Continued)

• Restricted – The following fund balances are legally restricted to specified purposes:

Non major governmental Funds:

Capital projects	\$ 3,526,704
Tourism	2,353,060
Public safety	156,572
Debt service	 5,467,394
Total	\$ 11,503,730

Net Investment in Capital Assets

The "Net *investment in capital assets*" amount as reported on the government-wide statement of net position as of June 30, 2015 is as follows:

Net investment in capital assets:	 Governmental Activities	 Business Type Activities	Co	omponent Units
Cost of capital assets	\$ 127,599,023	\$ 162,835,787	\$	69,456
Less accumulated depreciation	 68,624,307	86,248,212		69,456
Book value	 58,974,717	76,587,575		-
Less capital related debt - Bonds	15,948,489	54,100,000		-
Less capital related debt - Capital Leases	382,201	2,545,422		-
Less capital related debt-Utility Credits	540,000	-		-
Add unspent bond proceeds	40,250	3,268,499		-
Add deferred charges on bond refunding	 	 908,693		_
Net investment in capital assets	 42,144,277	 22,301,959	\$	-

4-A. Other Notes

4-A. Risk Management

The City is exposed to various risks of loss related to torts; theft of damage to and destruction of assets; errors and omissions; and natural disasters for which the City carries commercial insurance. The City established a fully self-insured program for workers' compensation (See below) whereby any claims exceeding \$500,000 are paid through a private insurance carrier, and the City through a third-party administrator pays any others.

According to the General Assembly of the State of Georgia, Section 36-33-1 of the official Code of Georgia Annotated, as amended, municipal corporations (i.e. the City of East Point), via sovereign immunity, shall be immune from liability for damages for actions based upon tort, but not contract. This immunity is still subject to actions brought based upon federal constitutional or statutory rights. The City carries liability insurance for the types of claims and in amounts that are customary for similar entities for those categories of claims not subject to the

defense of sovereign immunity. The City maintains commercial property and casualty insurance for property damage, earthquake, or flood damage. The various City assets consisting of its mechanical systems, computers, and other equipment is insured for over \$3,000,000, subject to limits for the individual asset types.

The City has purchased liability insurance for its general liability, its automobiles, its employees, public safety officers, public officials, and a blanket fidelity bond. Performance surety bonds and builders' risk insurance is required of all contractors and subcontractors involved in the construction and renovation of municipal facilities or assets. Any surety bonds are to be issued by firms having a rating of "A" or better by A.M. Best & Co. and builder's risk insurance must equal the sums of the contract.

There has not been a significant reduction in insurance coverage from the previous year. Settlement claims have not exceeded commercial coverage in any of the past three (3) years.

Note 4 - Other Notes (Continued)

The following represents the changes in approximate liabilities for workers' compensation from July 1, 2014 to June 30, 2016:

June 30,	Fiscal Year Liability	ns and Changes n Estimates	Claim Payments	Fiscal Year Liability
2014	\$ 973,334	\$ 1,027,015	\$ 805,676	\$ 1,194,673
2015	1,194,673	627,655	599,315	1,223,013
2016	1,223,013	132,210	1,133,163	222,060

4-B. Commitments

Construction Commitments - As of June 30, 2016, the City has made the following construction commitments in the governmental funds:

Contractor	 Total Contract	_ <u>E</u>	Project To-date spenditures	emaining mnitments	emaining ercentage
Mullins Brothers Paving	\$ 301,925	\$	278,572	\$ 23,353	7.7%
Mullins Brothers Paving Co (2015-1555	336,335	\$	322,191	14,144	4.2%
Peek Pavement Marking	41,082		41,082	-	0.0%
Foresite Group	301,925		157,504	144,421	47.8%
Over and under - ELI502	400,000		202,567	197,433	49.4%
Over and under - 2015-1552	48,688		46,254	2,434	5.0%
Able Too -2016-1576	 54,186		54,186	 MA.	 0.0%
Total	\$ 1,484,141	_\$_	1,102,356	\$ 381,785	\$ 1

Note 4 - Other Notes (Continued)

Contract Commitments - Municipal Electric Authority of Georgia — The City has entered into a power sales contract with the Municipal Electric Authority of Georgia (MEAG). The contract requires the City to purchase from MEAG all of the City's bulk power supply, other than power supplied by Federally-owned generation projects. MEAG is authorized to establish rates and charges so as to produce revenues sufficient to cover its costs. The City's future minimum payment obligations to MEAG will be based on MEAG's costs and the City's yearly demand for bulk power supply. The City's payment obligations under this contract are general obligations for which the City's full faith, credit and taxing powers are pledged. In order to continue to purchase from MEAG, the City is contingently liable for MEAG liabilities in the event of a default by MEAG. The City is current on all of its obligations to MEAG for power sales contracts.

Subsequent amendments to the MCT allowed the City and other participants to withdraw funds (covering the period from January 2009 through December 31, 2018) from the Credit Support Operating Account and the Flexible Operating Account. The sum of these accounts is reported in the City's Electric Utility Fund with the balance at June 30, 2016 of \$20,154,809. Funds within the Reserve Funded Debt account may be withdrawn only pursuant to the terms of the MCT agreement as amended; however, due to the restricted nature of the withdrawals from this account, it is not recorded in the Electric Utility Fund's financial statements. The balance in the account as of June 30, 2016 was \$5,071,597

4-C. Contingent Liabilities

Various claims and lawsuits are pending against the City. After consideration of applicable insurance policy coverage, and the relative merits of each claim or lawsuit, it is the opinion of the City Attorney and City Management that the potential ultimate liability resulting from these actions, if any, will not have a material adverse financial effect on the City.

The City is a co-plaintiff with the City of College Park, Georgia in action against Fulton County, Georgia alleging breach of contract and duties relative to agreements entered into by the parties for the construction, maintenance, operation and expansion of a sewage treatment plant intended to serve all parties. According to the plaintiffs, the agreements set forth provisions for sharing the cost of construction of the plant and methods for allocating operations and maintenance costs. At some point subsequent to executing the agreements, the County, according to the complaint filed by the plaintiffs, assumed sole ownership rights to the plant, subsequently sold excess capacity to other municipalities within the county and billed the plaintiffs under methods inconsistent with the proportional use of the facility. The plaintiffs are seeking declaratory judgment on several issues, including that the various agreements entered into by the parties are valid and enforceable contracts; that the County wrongly sold portions of the plant to other municipalities; that the County has improperly billed the plaintiffs; that they are entitled to shares of the monies received from the other municipalities utilizing the plant and that the percentages used in allocating operations and maintenance costs should be adjusted due to the additional users of the plant. They are currently pursuing settlement negotiations.

4-D. Joint Venture

The City participates in the following joint venture.

Atlanta Regional Commission (ARC) – Under Georgia law, the City, in conjunction with other counties and cities within the metropolitan Atlanta area, is a member of the Atlanta Regional Commission (ARC), the Regional Commission (RC) for the metropolitan Atlanta area. By agreement with the ARC, dues for cities within Fulton County, outside the City of Atlanta, are paid by Fulton County on a per capita basis. Also by agreement with ARC, Board representation for cities within South Fulton County is determined by the mayors of the cities in south Fulton County. The mayor of East Point is not the south Fulton County representative on the ARC.

Note 4 - Other Notes (Continued)

Georgia laws also provide that the member governments are liable for any debts or obligations of an RC beyond its resources (O.C.G.A. 50-8-39.1).

Separately issued financial statements are available at the ARC's administrative office, 40 Courtland Street, N.E., Atlanta, Georgia 30303.

4-E. Related Organization - The City has a limited relationship with the following organization:

Housing Authority of the City of East Point — The Housing Authority of the City of East Point (the "Housing Authority") is considered a related organization and not incorporated into the reporting entity. The Housing Authority is a legally separate entity from the City, having a board composed of members originally appointed by the mayor of the City. The City is not able to impose its will upon the Housing Authority and a financial burden/benefit relationship does not exist between them. Therefore, based on these criteria, the Housing Authority is a related organization. The Housing Authority issues separate financial statements.

Atlanta Housing Authority – the City Council appoints one member of the Atlanta Housing Authority and that is the extent of their involvement.

4-F. Hotel-Motel Lodging Tax

On April 18, 2011 the City passed an ordinance 003-11 to amend part 5, chapter 1, article B, section 5-1052 of the City's code in accordance with O.C.G.A. 48-13-51 to effectively from July 1, 2011, increase the lodging tax from 3% to 8%. The City has contracted with the Atlanta Airport District Destination Marketing Organization, Inc as a destination marketing organization ("DMO") to meet the expenditure requirements of Section 48-13-51(e) of the O.C.G.A. The City shall expend the proceeds of the tax imposed as follow:

•	City's General fund	3.0%
•	City's Tourism development projects (facilities)	1.5%
•	Tourism, convention and trade promotion contract with the DMO	1.5%
•	Tourism and trade promotion projects	2.0%

During the fiscal year the City collected \$4,239,485 and transferred \$1,589,807 to general fund, \$794,903 to the government fund for the construction of a tourism facility, paid \$794,903 to the DMO.

City of East Point, Georgia Schedule of Funding Progress and the Schedule of Employer Contributions For the year Ended December 31, 2015

City of East Point, Georgia Introduction to Statistical Section

This part of City of East Point's comprehensive annual financial report presents detailed information as a context for understanding this year's financial statements, note disclosures, and supplementary financial information. This information is unaudited.

Contents Exhibits

Financial Trends

These tables contain trend information that may assist the reader in assessing the City's current financial performance by placing it in historical perspective.

I - XI-A

Revenue Capacity

These tables contain information that may assist the reader in assessing the viability of the City's most significant "own-source" revenue sources, property taxes.

XII-XXIII

Debt Capacity

These tables contain information that may assist the reader in analyzing the affordability of the City's current levels of outstanding debt and the City's ability to issue debt in the future.

XXIV-XXVI

Demographic and Economic Information

These tables present demographic and economic information intended (1) to assist users in understanding the socioeconomic environment within which the City operates and (2) to provide information that facilitates comparisons of financial statement information over time and among cities.

XXVII-XXVIII

Operating Information

These tables contain service and infrastructure indicators that can inform one's understanding how the information in the City's financial statements relates to the services the City provides and the activities it performs.

XXIX-XXXII

Data Source:

Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial report for the applicable year. The City implemented GASB Statement No. 34 in fiscal year 2003.

Notes:

Accounting standards require that net position be reported in three components in the financial statements: net investment in capital assets; restricted; and unrestricted. Net positions are considered restricted only when (1) an external party, such as the State of Georgia or the federal government, places a restriction on how the resources may be used, or (2) enabling legislation is enacted by the City.

^{*} Dollar average for ten years.
** Percentage change in dollars over ten years.

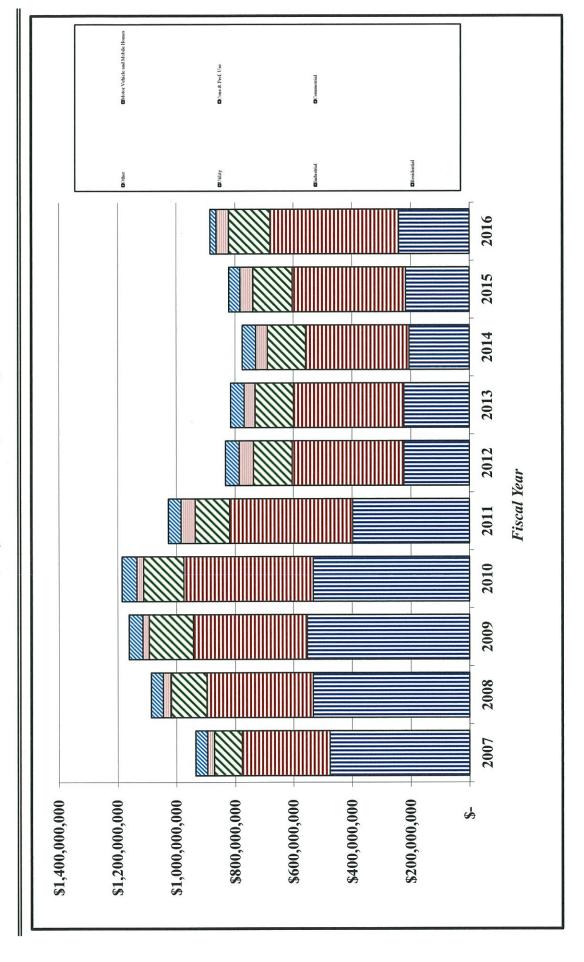

¹ All property is assessed at 40% of fair market value.

² The tax year is one year prior to the fiscal year.

³ Generally includes timber and heavy equipment.

⁴ Tax rates expressed in rate per \$1,000

Georgia Department of Revenue, Property Tax Division, http://www.etax.dor.ga.gov/PTD/cds/csheets/millrate.aspx

 $^{^{}I}$ Overlapping rates are those of governments that overlap the City's geographic boundaries.

² The State of Georgia levies one quarter of one mill on each City's taxable property to help finance their certification of each Georgia city's tax digest.

Notes:

¹ The amounts reported in the total uncollected taxes column are the uncollected taxes for each tax levy.

² When restating this exhibit to reflect the requirements of GASB Statement No. 44, the collections in the prior year have been applied to the year prior to collection, since restating this table was not practicable. As a result, some years report more than a 100% collection rate.

Notes:

Data Source:

Georgia Department of Revenue, Sales and Use Tax Division, https://etax.dor.ga.gov/salestax/salestaxrates/LGS_2009_Apr_Rate_Chart_Historical_rates_09.pdf

¹ The local option sales tax (LOST) was approved by referendum effective January 1, 1979 and is effective indefinitely. The City is required to reduce their property tax millage rate in the current year by the amount of these taxes collected in the prior year.

² An education special purpose local option sales tax was approved effective July 1, 2002 and expired June 30, 2007. The current education special purpose local option sales tax was approved effective July 1, 2007 and expires June 30, 2012. The latter tax is being used to construct new school buildings and renovate existing school buildings.

³ This sales tax rate is levied in counties in the Metropolitian Atlanta Rapid Transit Authority (MARTA) district which have a service contract with MARTA, currently Fulton and DeKalb counties.

Notes:

Data Source:

¹ Applicable percentages were estimated by determining the portion of another government unit's assessed value that is within the City's geographic boundaries and dividing it by each government's total assessed valuation.

² Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City.

³ Each specific government
