

Update on CARES Act Funding for Utility Payment Assistance Program

Letters were mailed on November 19th and November 20th to residents who applied for the COVID-19 Utility Payment Assistance Program through CARES Act Funding. The deadline to apply was October 30, 2020. This is funding that will support residents who were negatively impacted by COVID-19. The letters indicate whether or not if you qualify for the program. If you qualify, the payment will be applied directly to your account. This can take up to 2-3 weeks before the credit is applied to the account. Qualified residents will not have their service disconnected.
