PROCEDURES TO SUBDIVIDE OR COMBINE LOTS AND PLATS

No real property within the city shall be subdivided and offered for sale or a plat recorded until approved first by the Planning & Community Development staff and City Engineer. There are three categories to subdivide: the Preliminary Plat, Minor Plat, and the Final Plat. Please find the application guidelines for all applicable documents pertaining to the process below. Subdivides must be in accordance with Chapter 4 Subdivision Regulations of the Zoning Code and Development Regulations. Please retain a copy for your records.

PRELIMINARY PLAT REQUIREMENTS – A finished drawing of a development of four (4) or more lots that, at the time of development, does not necessarily, but may involve a land disturbance permit, new streets, the extension of a utility or other municipal facilities and depicts all legal and engineering information required by these Subdivision Regulations.

Digital PDF showing the following information:

1. Provide a name or title for all maps or plats. The name of the former subdivision, Deed Book and Page number shall be stated, if applicable.
2. Provide the following: City, County, District, Section, and Land Lot; Date of plat preparation and each individual revision record.
3. The name of the Land Surveyor, Registration Number, and Seal shall be affixed to the plat under the surveyor's signature.
4. Provide the name and address of the subdivider.
5. Provide a statement in the notes to indicate the type of equipment used to obtain the linear and angular measurements.
6. Provide all angular directions in degrees and minutes. Where plats or surveys require accuracy in excess of 1 in 5,000, the angular directions shall be presented in degrees, minutes, and seconds. All angular directions shall be referenced to the principal meridian.
7. Add this note to plat: "Distances shown on the plat shall be horizontal."
8. Provide in the notes the reference for the angular bearings shown on the plat.
9. Provide an arrow to indicate the principle meridian.
10. Provide a location sketch which clearly shows the location of the site with respect to the nearest two (2) intersections, and provide on the plan the distance to the nearest intersection.
11. Show all land lot lines, district lines, section lines, city and county boundaries labeled appropriately with words and figures.

12. Provide distances on all boundary or lot lines. Distances shall be given to the nearest one-tenth (1/10) of a foot.
13. Provide data for regular and irregular curves, chord distances and directions.
14. Provide the existing and proposed widths of all rights-of-way and pavement, centerline, intersection angle and centerline curve data.
15. Location data to establish bearing and length of all street rights-of-way, lot lines, boundary lines and building lines. Data shall be provided to describe the curve radius, arc length, internal angle, and tangent distance to centerline of curved streets and curved boundary lines that are not the boundary of the curved streets.
16. Tract boundary lines, right-of-way lines of streets, easements, and other rights-of-way, proposed property lines of lots, setbacks, and lot areas in square feet and acreage.
17. All dimensions shall be accurate to the nearest one-tenth of a foot and all angles accurate to the nearest minute.
18. Name and right-of-way width of each street or other right-of-way and description of driveways in a general project summary.
19. Title, name, and location of subdivide (vicinity map), north arrow, date, scale, zoning, land lot, and district numbers.
20. Location, dimensions, and purpose of any easements and areas to be dedicated to public use or sites for other than residential use with notes stating their purposes and limitations.
21. Lots or tracts numbered in numerical order with blocks lettered alphabetically (not addresses).
22. Show state water buffers and zoning buffers.
23. Provide in the notes the total acreage of the entire site, to the nearest 1/100 of an acre; and the total number of lots. Provide on plan view the area of each lot or parcel in square feet.
24. Show all public service utility right-of way lines.
25. Show all easements including sanitary sewer easements, required future sewer construction and apparent encroachment. Differentiate between public and private easements. All easements dedicated to East Point shall be shaded. Do not shade dimensions or notes.
26. Add this note to plat: **“East Point personnel and/or agents shall have free total access to and across all easements.”**
27. Tree Survey – A survey will be required on any parcel where greater than ten (10) trees will be removed due to any activity on the property.
28. Landscaping Requirements - In accordance with Chapter 6 tree Protection and Landscaping.
29. Create signature block as follows:

The Director of the Department of Planning and Community Development of the City of East Point, Georgia, certifies that this plat complies with the City of East Point Zoning Code and Development Regulations.

MINOR PLAT REQUIREMENTS – A finished drawing of a development of no more than three (3) lots that, at the time of development, does not necessarily, but may involve a land disturbance permit, new streets, the extension of a utility or other municipal facilities and depicts all legal and engineering information required by these Subdivision Regulations.

Digital PDF showing the following information:

1. Location data to establish bearing and length of all street rights-of-way, lot lines, boundary lines and building lines. Data shall be provided to describe the curve radius, arc length, internal angle, and tangent distance to centerline of curved streets and curved boundary lines that are not the boundary of the curved streets.
2. Tract boundary lines, right-of-way lines of streets, easements, and other rights-of-way, proposed property lines of lots, setbacks, and lot areas in square feet and acreage.
3. All dimensions shall be accurate to the nearest one-tenth of a foot and all angles accurate to the nearest minute.
4. Name and right-of-way width of each street or other right-of-way and description of driveways in a general project summary.
5. Title, name, and location of subdivide (vicinity map), north arrow, date, scale, zoning, land lot, and district numbers.
6. Location, dimensions, and purpose of any easements and areas to be dedicated to public use or sites for other than residential use with notes stating their purposes and limitations.
7. Lots or tracts numbered in numerical order with blocks lettered alphabetically (not addresses).
8. Tree Survey – A survey will be required on any parcel where greater than ten (10) trees will be removed due to any activity on the property.
9. Landscaping Requirements – In accordance with Chapter 6 Tree Protection and Landscaping.
10. Lot Combinations – If property lines are being adjusted and more than one lot is being affected, all lots involved need to be portrayed on the survey. The resultant property lines should be solid lines. The previous property line(s) needs to be shown as dashed or dotted lines and labeled "Original Property Line".
11. Owner's acknowledgment:

STATE OF GEORGIA, COUNTY OF FULTON.

The owner of the land shown on this plat and whose name is subscribed hereto, and in person or through a duly authorized agent, acknowledges that this plat was made from an actual survey and dedicates to the use of the public forever all streets, alleys, parks, watercourses, drains, easements and public places thereon shown for the purposes and considerations therein expressed.

FINAL PLAT REQUIREMENTS – A finished drawing of a development that provides a complete and accurate depiction of all legal and engineering information required by the Subdivision Regulations. Certification for recording and ratification of the Director of Planning and Community Development and of Director of Public Works, and consent by East Point City Council. The final plat shall be drawn clearly and legibly, in black ink, or tracking cloth or other permanent reproducible material, at a recommended scale of 100 feet to the inch. The use of other scales may be approved by the Planning and Community Development Department. If the complete plat cannot be shown on one sheet, then said plat shall be shown on several sheets with an index map indicated on each sheet.

Three (3) originals (17 in. by 22 in.) with a minimum character height of .08 inches and one (1) copy (11 in. by 17 in.) and one (1) digital PDF showing the following information:

- A. Whenever the provisions of these rules and regulations have been complied with and while the Preliminary Plat approval is in effect, the subdivider may submit to the Director of Public Works an application for Final Plat review and approval pursuant to these regulations. All required infrastructure shall be completed and approved, or performance bonds for a portion of such improvements shall be filed in accordance with section 10- 4009 (C) of this regulation.
- B. Plats recorded and filed at Fulton Superior Court must meet the standards of the “Georgia Plat Act.” The Clerk of Superior Court can and will reject your document if it is not legible or does not meet Georgia Plat Standards.
- C. Prior to approval or recording of a final plat, the following must be provided by the subdivider, or the designee thereof:
 1. Cash assurance in an amount equal to 125% of the cost of infrastructure improvements not yet in compliance. Said cash bond shall be maintained until the improvements have been approved by the City;
 2. Maintenance bond to ensure the viability of infrastructure improvements;
 3. Provide “as-built” drawings to the Field Construction Inspector for review and approval, prior to or coincidental with the submittal of the Final Plat conditions of the site;
 4. Provide a letter of approval, from the Field Construction Inspector prior to recording of the final plat;
 5. Provide the final plat application. Once all review comments are satisfied; provide two (2) copies and original mylar;
 6. The scale shall be stated as “1” inch to _____ ft. and shown graphically;
 7. An electronic format acceptable to the Public Works Department containing data about the sanitary sewer and water systems where available;
 8. Provide a letter of approval for a “Street Lighting Plan” from the Department of Public Utilities, Transportation Section, prior to final review;
 9. Signed release of the project by the Director of Public Works;
 10. Recorded deed to the Director of Public Works for any dedicated space;
 11. Sufficient data to determine readily and reproduce on the ground the location, bearing and length of every street line, lot line, boundary line and building line whether curved or straight. This shall include but not be limited to the radius, length of arc, internal angles and tangent distance for the center line of curved streets and curved property lines that are not the boundary of curved streets;
 12. Tract boundary lines, right-of-way lines of streets, easements and other rights-of-way, and property lines of residential lots and other sites;

13. All dimensions shall be accurate to the nearest one-tenth of a foot and all angles accurate to the nearest minute;
14. Name and right-of-way width of each street or other right-of-way;
15. House numbers; **{Assigned by the Department of Planning and Community Development}**
16. Title, name and location of subdivision, north arrow, date, scale and land lot and district numbers;
17. Provide the closure precision of the field survey as the ratio of one foot to the traversed distances in which an error of one foot would occur, and a statement in the notes as to the method of adjustment as follows:

“The field data upon which this plat is based has a closure precision of one foot in _____ feet and an angular error of _____ per angle point, and was adjusted using _____ rule.”
18. Provide the closure precision of the survey data shown on the plat as follows:

“This plat has been calculated for closure and is found to be accurate within one foot in _____ feet.”
19. Location, dimensions and purposes of any easements and any areas to be dedicated to public use or sites for other than residential use with notes state their purposes and limitations;
20. Lots or sites numbered in numerical order and blocks lettered alphabetically;
21. Accurate location, material and description of monuments and markers;
22. Certification showing that applicant is the landowner and dedicates streets, rights-of-way and any sites for public use;
23. Certification by the department of public works, water system and the city engineer that the subdivider has complied with one of the following alternates:
 - a. All improvements have been installed in accordance with the requirements;
 - b. A performance bond has been posted in sufficient amount to assure completion of all required improvements;
 - c. Any other guarantees of satisfactory completion of required improvements acceptable to the various departments.
24. Certification of the city engineer of acceptance of street design and improvements;

25. Engineer's or surveyor's acknowledgement: It is hereby certified that this plat is true and correct and was prepared from an actual survey of the property made under my supervision on the ground.

f. FLOOD HAZARD

The Intermediate Regional Flood (I.R.F.) areas shown heron were determined by the Professional Engineer whose stamp and signature are affixed hereto. City of East Point does not, by approving this plat, warrant their accuracy, not imply that land outside the areas of flood hazard shown, will be free from flooding or flood damage. Further, East Point does not, by approving this plat nor accepting the public improvements therein, assume maintenance of the flood carrying capacity of the flood or watercourses. Maintenance shall remain the responsibility of the owner/s of the land upon which they exist. The owner of a lot or parcel, that contains a flood hazard area, is required to submit a site plan to East Point, prior to the initiation of any improvements to the lot or parcel. The site plan shall include the location and elevation of the I.R.F. within the lot or parcel and the existing and proposed improvements. Approval of the site plan by East Point is required prior to the issuance of a building permit.

g. DRAINAGE

The owner of record, on behalf of himself (itself) and all successors in interest, specifically release East Point from any and all liability and responsibility for flooding or erosion from storm drains or from flooding from high water of natural creeks, rivers or drainage features. A drainage easement is hereby established for the sole purpose of providing for the emergency protection of the free flow of surface waters along all watercourses as established by these Regulations and the Director of the Department of Public Works. Said

Director may conduct emergency maintenance operations within this easement where emergency conditions exist. Emergency maintenance shall be the removal of trees and other debris, excavation, filling and the like, necessary to remedy a condition, which in the judgment of staff and Director, is potentially injurious to life, property, or the public road or utility system. Such emergency maintenance, conducted for the common good, shall not be construed as constituting a continuing maintenance obligation of neither the part of East Point nor abrogation of East Point's right to seek reimbursement for expenses from the owner(s) of the property(ies) or the lands that generated the conditions.

h. STORM PIPES

THE STORM PIPE SHOWN HAS BEEN LAID BY OWNERS. THE CITY OF EAST POINT IS NOT LIABLE OR RESPONSIBLE FOR THE EXTENSION OF STORM PIPES SHOWN ON THIS PLAT NOR FOR THE EROSION OR FLOODING FROM SUCH STORM PIPES AND DRAINS AS ARE SHOWN ON THIS PLAT.
